

# HIGH-TECH HOME?

The Pitfalls of the D.I.Y. connected home

BY Nick Bilton

For the first time in recent memory, I had to call tech support. It wasn't for my computer or my smartphone. It was for my house.

This summer, I had the bright idea to connect my home to the Internet. As anyone who has walked into a Home Depot recently can tell you, the future has supposedly arrived. And it's called the Internet of Things.
